

...1896...

New York Life Insurance Co.

Nos. 346 and 348 Broadway, New York.

JOHN A. McCALL, President.

Composed of over 275,000 Policy-holders who ARE the Company, who OWN the Company, and who alone receive its profits.

THE Company announces that its book for the year 1896, which has been closed to-day, shows that it has insured during the year 51,000 individuals, in the sum of

\$120,000,000

of insurance, on which the first premiums have been paid to the Company in cash.

The Company placed over \$10,000,000 more new insurance in the United States during 1896 than it did during 1895.

During the year the Company has paid in death losses on the lives of 2,550 policy-holders.

\$9,250,000

During the year the Company has paid to its living policy-holders, in maturing policies and other benefits, over

\$8,500,000.

J. H. BOYCE, LOCAL AGENT.

DURING the year the Company has loaned direct to 4,250 of its policy-holders, on the sole security of their policies, upward of

\$3,000,000.

at 5 per cent. interest per annum, without fee or other charge.

During the year the Company has paid its policy-holders in dividends over

\$2,000,000.

which is \$350,000 more than was paid in 1895.

The Company now has over

\$35,000,000

more insurance in force in the United States than it had a year ago.

New York, Dec. 31st, 1896.

A Good Windmill—make it Yourself.

I built one of the People's windmills which I saw recommended in your paper recently, and it only cost me \$9.40 and is a splendid mill; my well is deep, but it pumps it all right with very little wind; the neighbors all like it, and as I am a kind of a carpenter I have agreed to put up nine more already, on which I can make a nice profit, and there are many others for whom I can put up mills for sale. I don't see why every farmer should not have a wind mill, when they can make it themselves for less than \$10; you can get diagrams and complete directions for making the wind mill by sending 18 two-cent stamps to pay postage, etc., to Francis Casey, St. Louis, Mo., and there can be done of them put up in any locality by anyone that has energy to do so.

A Farmer.

The end where no brakes were attached, and he thus escaped being frightfully mangled. Mr. Jewett is under the treatment of Dr. Turnbull, and is slowly recovering though suffering much pain from his ankle.

—Rev. G. M. Lehigh, Superintendent of Baptist Missions, will address a public meeting in the Baptist hall on Friday evening, 22d inst., at 8 o'clock. Everybody welcome.

—The annual meeting of the Qu'Appelle branch of the Upper Canada Bible Society will be held in Knox church on the evening of the 27th inst. Rev. J. M. Douglas, agent for the society, and resident ministers will address the meeting.

A meeting will be held in the council chamber on Saturday, at 1 o'clock p.m., to form a joint stock company for a new government creamery. Parties wishing to take stock should be on hand. Contracts will also be let for putting up 100 tons of ice.

—The department of agriculture has issued Bulletin No. 26, giving the results of a large number of experiments made at the different government experimental farms, with grain, fodder, corn and roots. The results show wide variations in the weight of the crops sown, and point to the importance of greater care being exercised by farmers in choosing varieties of seed for sowing.

—On Friday a new order went into force on the C.P.R., under which all trainmen and yardmen must carry timepieces of approved standard, which must be regularly inspected and compared by inspectors appointed by the company.

The inspector for this division is D. R. Dingwall, of Winnipeg. Time will be telegraphed every day from Toronto at five minutes before noon to every station on the system.

—A good story is told on a rather nervous young lady of Illinois. The other day she was at a crossing near the passenger depot while the trainmen were doing some switching. As the train backed up one brakeman yelled to the other: "Jump onto her as she comes by, run her down behind the coal chute and cut her in two and bring the head end up to the depot." It is said that the young lady jumped up and down and yelled as loud as she could.

—Commissioner Herchmer arrived on Monday's train to make final arrangements for starting the police patrol out to Lac la Pêche, Grand Rapids and Fort Chipewyan. Inspector Routledge was expected to command the patrol, but is laid up with a severe cold. Inspector Jarvis, of the stand-off detachment, will take his place and will arrive

—A number of our townspeople attended the farmers' ball at the Head on Tuesday evening, and pronounced it a success in every respect.

—A meeting of the executive committee of the diocese of Qu'Appelle will be held in the vestry of St. Peter's cathedral on Wednesday, 27th inst.

—The son of Rev. T. S. McLeod, who received the pistol wound at Grenfell, is out of all danger and is not likely to suffer much in future from the injury.

—Just received, a consignment of apples, which I will dispose of at a low figure for cash. Also a quantity of flour at close cash prices. Alex. McKenzie.

—As an incentive to regular attendance at school, Miss Middleton will give prizes to the scholars in her room attending most regularly during the present term.

—Mr. A. E. Iredale returned home on Tuesday. He was astonished at the wonderful growth in the Lake Dauphin country since his last visit, especially in Dauphin town.—Vidette.

—While switching cars at Boharm sidetrack on Saturday evening last, says the Moose Jaw Times, brakeman Frank Jewett accidentally fell from the top of a box car, lighting in the centre of the track on his right foot, dislocating his ankle. The train was in motion and one truck passed over his body, but fortunately it happened to be

on to-night's train. The party will start north forthwith. They are expected to investigate the poison and fire questions along the Athabasca, and to proceed to Fort Resolution if possible to report on the protection of the wood buffalo. If possible they will return by way of Peace river before the ice breaks up. If not they will come back on open water.—Lethbridge News.

—Mr. John H. Jacobson, artist, is in town taking orders for advertisements for hotel desks which he is putting in the hotels along the line. Mr. Jacobson has put in desks all over the east and south to the satisfaction of all concerned.

—Old Wesley hall, lately known as the Grand opera house, Winnipeg, was destroyed by fire on Sunday morning last. A fire also broke out in the Assiniboine block, and but for timely discovery many might have lost their lives, as a great many people occupied the building. Another fire also broke out in the fruit store of Mr. Dawson, but was extinguished before much damage was done.

—Two articles from the pen of Lieut. Governor Mackintosh are announced to appear, one in the February issue of the Canadian Magazine, "British America's Golden Gateway to the Orient—Russia and the Kootenay Mining Centres;" the second, the "Empire's Far Northern Outpost," dealing with the establishment of law and order in the great Yukon country, the output of gold and the trade offered will be published in the Montreal Star. Both will be illustrated.

—Rev. Mr. Kemlo received a bad kick from a horse on Sunday afternoon at Summerberry. He had driven there to take his usual service, and was putting his own horse away in Mr. Linnell's stable. When passing another horse in the stable it kicked and Mr. Kemlo jumped aside, but before he got out of the way the horse kicked again and struck him over the left eye, knocking him over and inflicting an ugly, though not dangerous wound. He was somewhat dazed for a time but was able to go on with the service as usual.—Grenfell Sun.

—Waghorn's Guide has received additional acknowledgment of its merits. The council of the Northwest Commercial Travellers' association have passed a resolution endorsing and recommending it. The testimony is well deserved, for the Guide is essential to all business men and travellers and has been their steady for many a day. Its familiar trade-mark, "You'll find it in Waghorn's Guide," is well known and aptly suggests at the same time its contents and anticipates enquiries. It furnishes full official information of travel by rail, stage, ocean and lake, records mail changes, gives a complete list of all post offices and their location and stage connection, has an index to all railway stations, has legislative, city, municipal, county court, registry tables, military, ecclesiastical, land and lodge guide up to date, list of city and provincial banks and maps of city and province and forms a diary almanac and weather record.

—The department of agriculture has issued Bulletin No. 26, giving the results of a large number of experiments made at the different government experimental farms, with grain, fodder, corn and roots. The results show wide variations in the weight of the crops sown, and point to the importance of greater care being exercised by farmers in choosing varieties of seed for sowing.

The train was in motion and one truck passed over his body, but fortunately it happened to be

Churning Done in One Minute.

I have tried the Lightning Churn, you recently described in your paper, and it is certainly wonderful. I can churn in less than one minute, and the butter is cleaner and you get considerably more butter than when you use a common churn. I took the agency for the churn here and every butter maker that sees it buys one. I have sold three dozens and they give the best of satisfaction. I know that I can sell 100 in this township, as they churn so quickly, make so much more butter than common churns and are so cheap. Someone in every township can make two or three hundred dollars selling these churns. By addressing J. F. Casey & Co., St. Louis, Mo., you can get circulars and full information so you can make big money right at home. I have made \$50 the past two weeks and I never sold anything in my life before. A Farmer.

lowered the record last fall by running a mile in four minutes. Let us hear from Manitoba.

Is it so that one of our bachelors has bought the wedding suit? What is his name?

We had a blow out on Saturday night, but to-day, Monday, is fine.

DE. CHASE CURES BACKACHE.

Kidney trouble generally begins with a single pain in the back, and in time develops into the chronic. People troubled with stricture, impediments, stoppage of water, or a frequent desire to urinate at night, will find Dr. Chase's Kidney-Liver Pills a blessing. Read the wonderful cures in another column. One pill is a dose, and if taken every other night will positively cure kidney trouble.

Curling.

On Monday afternoon a rink skipped by Mr. S. Edwards came up from Indian Head to play friendly games with some of our local rinks. The first game resulted in a victory for Indian Head over the Big Four by 1 point. In a second game with a scratch rink Indian Head was not so fortunate. Qu'Appelle defeating them by 10 points. On Tuesday a scratch game was played but we were unable to learn the result. In the afternoon a rink skipped by W. Waite paid the Head a return visit and took in the ball in the evening.

Moosomin will hold their fourth annual bonspiel on the 21 and 30 of February next, when the best prize list ever offered by the club will be competed for. Local rinks are limited; this, with extra sheets of ice in the skating rink will shorten the time of the 'spiel so that visiting curlers will not be delayed more than two days. The committee are putting forth every effort to make this the banner 'spiel in the history of the club.

The annual bonspiel at Winnipeg will be held on February 8th.

Last week Regina and Moose Jaw competed for the district medal, Regina defeating Moose Jaw by a majority of 43 points. In the competition for the Tuxedo trophy Regina was again successful.

The Thistle rinks of Winnipeg defeated two crack rinks in Toronto on the 15th, by a score of 16-14 and 12-8.

THE LIFE OF DR. CHASE.

As a compiler of Chase's Recipe Book, his name is familiar in every household in the land, while as a physician his works on simple formulas left an imprint of his name that will be handed down from generation to generation. His last great medicine, in the form of his syrup of Linseed and Turpentine, is having the large public patronage that his Ointment, Pills and Catarrh cure are having. Dr. Chase's Syrup of Linseed and Turpentine is especially adapted for all Bronchitis and Asthmatic troubles.

Spencerville Splashes.

(From an occasional correspondent.) While two young men were out walking the other night, they observed two jumpers coming down the road. They stepped aside and allowed them to pass, but other than the fluttering of a robe there was no indication of human occupants.

Rather amusing, eh? There in a single jumper, while a team comes behind with only one. Oh, let us change, H; you go back with G, I can drive.

Bachelor's going out driving should always carry a spare neck-yoke. Oh! what is the matter? Why, we are all sitting on the snow! Take her home, Sam, take her home; it is lonely out there.

Ha, ha! The jumper that only touches the high places is going east now, eh, in order to alay a suspicion. Might I ask who was prowling around the school the other night with a new jumper?

We are highly pleased to see Mr. Blakeney able to attend our parties again.

Rouse up, young folks, and turn out to prayermeeting. Better people than you do.

—Wheat dropped to 57c. today.

Gray's Syrup of Red Spruce Gum

For Coughs, Colds, Bronchitis, Sore throat, etc.

KERRY, WATSON & CO., PROPRIETORS, MONTREAL.
